Chapter 9 Real-life graphs

Question	Answer	Extra information	Marks
9.1 (a)	30 km		1
9.1 (b)	The gradient is less steep after 12:00		1
9.1 (c)	Distance run = 5 km in 30 minutes.	Correct reading of values from the graph	1
	Speed is thus 10 km/h	Correct answer	1
9.1 (d)	(W) 30 20 10 10 10 11:00 12:00 13:00 14:00 15:00 Time	Correctly rendering Section 1 Correctly rendering Section 2	1 1
9.2 (a)	Weeks 3, 5, 7 and 9 (the height goes down)		1
9.2 (b)	Weeks 9 and 12 (the gradient is the least steep there)		1
9.2 (c)	It grew 2 cm in 2 weeks, so 1 cm per week		1

Question	Answer	Extra information	Marks
9.3	a – B	One pool correctly identified	1
	b – A c – C	All three correctly identified	1
9.4	$\mathbf{SO}_{\mathbf{H}} = \begin{pmatrix} 1 & 1 & 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1 & 1 \\ 1 & 1$		2
9.4 (a)	6 Euros		1
9.4 (b)	12 Pounds		1
9.4 (c)	If 5 Pounds = 6 Euros, then 1 Pound = 1.2 Euros 200 Pounds = 200×1.2 = 240 Euros	Accept any reasonable pair used to convert Correct answer, within reasonable tolerance	1 1
9.5	Graph C		1

Question	Answer	Extra information	Marks
9.6 (a)	£4		1
9.6 (b)	£2		1
9.6 (c)	23 miles		1
9.7	3x+3x+(x+1)+(x+1) = 8x+2 8x+2 = 38 8x = 36 x = 4.5	Correct expression for perimeter (not necessarily simplified) Attempting to solve the equation for the perimeter Correct answer	1 1 1
9.8	$1.5 \times 100 \times 100 = 15000 \mathrm{cm^2}$		1 1
